

Start-up Cell

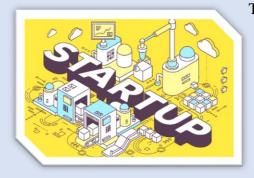

Bihar has emerged as a dynamic entrepreneurial ventures, fostering innovation and economic growth in eastern India. The Bihar Start-up ecosystem aims to support aspiring entrepreneurs by providing resources, mentorship, and funding opportunities to transform their innovative ideas into successful business ventures. With government-led initiatives like the Bihar Start-up Policy and the Bihar Industrial Investment Promotion Scheme, the state is

creating an enabling environment for Start-ups across various sectors, including technology, agriculture, health, and education.

In line with this mission, the **Bihar Start-up Cell at L.N. Mishra College of Business Management (LNMCBM)** plays a pivotal role in nurturing entrepreneurial talent and fostering a culture of innovation among students and young professionals.

The Start-up Cell is established with the collaboration of Start-up Bihar and funded by the Department of Industries, Govt. of Bihar. It serves as a catalyst for ideation, incubation, and business development, providing a collaborative platform for aspiring entrepreneurs.

The Cell offers comprehensive support through mentorship programs, networking events, and skill-building workshops. It aims to bridge the gap between academic learning and real-world entrepreneurial challenges by engaging industry experts and successful entrepreneurs as mentors. Additionally, the Bihar Start-up Cell at LNMCBM actively collaborates with government agencies, investors, and Start up accelerators to provide students with access to funding,

legal assistance, and market expansion opportunities.

By cultivating an entrepreneurial mind set and facilitating the development of innovative solutions, the Bihar Start-up Cell at L.N. Mishra College of Business Management aspires to contribute to Bihar's economic development and position the state as a hub for impactful business ventures.

Key Facilities:

• Co-working Space:

A vibrant, fully-equipped workspace with high-speed internet and modern infrastructure to foster collaboration and creativity.
